TREET IMPROVEMENTS.

Printed in The Citizen. STRVEYOR YOUNG'S REPORT HE HONOGABLE THE TOWNSHIP

an requested by Mr. E. A. Rayner, a miles spon the subject "How shall of the Township of Bloomfield

and find it is divided physically iso watersheds known and designat or the names of the rivers that drain : The Second River and Third River

settled, especially in the immediborhood of the village of Bloom Valueshing and Glenridge. The laid out without system with little or no regard to meral welfare Their location apto have been made largely to suit orivate interests of the various land The result is crooked, irregular the general character and effect can materially improved, if some of the materially improved, if some of the material were widened and the awkward with a street taken out by lines so made in give the effect of graceful curves. The streets have been graded largely multiplicate property, which is not in fivery objectionable if a proper sys-n of surface drainage is maintained. comised and Ridgewood Avenue have

ENGINEER OWEN'S REPORT.

dwell.

Thus it may be seen that the whole schedule of growth may be divided into four general heads siz.

Roads; Water, Sewerage; and Drainage. And I propose to deal with these four subjects with their special application to your Jownship.

with their special application to your Investigation.

L. Roans and Straights. The general plan satisfa adopted in cities is, in their earlier stage of growth, to appoint a commission to lay out the whole only into streets maccordance with a precent is not practicable, as the authorities of the town itself have not the power, in my opinion, should be speedily acquired, either by legislation or by the inhabitants of the Township availing themselves of existing statutes to incorporate themselves into a Town or Borough. Se for the nance we will through the same such a power acquired.

ment of our demandment of interests of the control of the control

To THE TOWNSHIP COMMITTEE OF BLOWNSHIP Generalized Section of the proper and systematic method to be adopted for the proper development of the Township of Biosomifeld as a place of so ideal town we would have. first, the evaluation laying on the importance in the method to be adopted for the proper development of the Township of Biosomifeld as a place of so ideal town we would have. first, the evaluation laying out of all necessary improvements and their construction before the the instituted Biomarkes came there. This of course as measure of political seconomy is not practically as it is not considered, the publicate Biomarkes came there. This of course with absolute sands should be carried work a me, and complete, the publicate Biomarkes came there. This of course with a measure of political seconomy is not practically marked on the map, so that it may be and should be a received to the strength of the strength of the strength of the complete of the publication of the investment of the strength of the investment of the strength of the investment of political seconomy is not practically the strength of the strength of the investment of the investme

TO THE TOWNSHIP CORMETTEE OF THE

In their process of growth and development the following order: First are the inhabitants have decessity must have houses. Then follows the opining of roads for their interfoliation on the opining of roads are generally laid who require the convenience. Then 'olove' the first are the inhabitant the convenience. Then 'olove' the first are the process of the pear of the process of the same and making and interfered and the constitution becomes and immediately on obtaining a picnifful supply of water, sewerage is imperatively demanded. Interspersible to desirable at all impose of the year. After the more crowded a demand for purer water arises, and immediately on obtaining a picnifful supply of water, sewerage is imperatively demanded. Interspersible the first portion of the same and making as thorough an examination of the different sections are sitempts at local drainage, accordingly as the minances existing are girst or again, until at length a general system of drainage is domanded and sequired. After the above necessative (if we may so call the orange Mountains is due principally to imprévenents that have been made in the the roads, attrets and avenues of that portion of the County 'organity to imprévenents that have been made in the the roads, attrets and avenues of that portion of the County 'organity to the principal development in the way of parks and drives. But the low rate of fare and accommodations furnished, thus affording easy and repid transit to the City of New York. Thus it may be seen that the whole schedule

ork. This growth is very apparent in one Sections where these improvements have been made. While some Town-ships have expended from five thousten thousand dollars in improve sents yearly, others have found it much more economical and to give better satisfaction to issue bonds for sums and make their road improvements a once in one large contract.

It is a well known fact that a large con-

ract can be placed at a lower figure than smaller one and it would seem to be the better way for Townships contempating road improvements to do their first work by improving the main high-ways and other principal roads running through take different sections of the Township at one line.

existing statutes to incorporate themselves of a permanent series. No system of swerage has another the Township, the Township of the Township, the Township of the Township is at one of the Township is the present condition of the Township is at one of the Township is the township is at one of the Township is the present condition of the Township is the township i

In proceeding with the work suggested I would importance of having what is done thoroughly and correctly, as it is of casential importance in the growth of any community. The people should know with alsociale accuracy, where their land inches their works of the street should be known. With the works of the street should be known. With also the wards of the street should be known. With findly work done, and complete, the palasquent limpore meaning as they are made should be carefully and should be a record of curry act of importance in the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a record of curry act of importance with good and sufficient that it is also the street should be a record of curry act of importance with the street should be a record of curry act of importance with the street should be a street with good and sufficient than the course of the street will be a meaning a street will be a street will be specially of roong the should be a street will be a
